THE WAR CLOUD.

Germany will Search all Vessels Arriving at Samoa.

The United States Steamer Richmond Boarded and Searched.

War Declared Against Mataafa and Apia Under Martial Law.

Secretary Bayard Interviewed upon the Late Developments.

War Cloud Darkening.

ACCORDING January 31 Advices from Samoa state that the German officials have given notice that all vessels arriving there will be searched for articles contraband of war. A passenger on the British steamer Warner who visited Mataafa's camp was placed under arrest but was subsequently released in compliance with the demand of the British consul.

The steamer Richmond arrived at Apia on the 12th inst. and on the 13th the following dispatch was received by the secretary of the navy from Admiral Kimberly:

"Of course," Frye continued, "I do not know whether the statements in this dispatch are true, but if they are, then these three assertions are made by the Germans in Samoa. One is the right to search American vessels going into the harbors of a nation with which we are in treaty relations. The second is the suppression of free speech. The other is practically control of the police of Apia by a policy which, by agreement between Germany, England, United States and the Samoan King, was to be neutral ground."

Real or in view of the remarks of the senator from Maine, Mr. Frye, who is a member of the committee on foreign relations said: "It would be, perhaps, best to let the amendment pass as reported, and in view of the fact that matters are very rapidly coming into such shape that we shall probably have the question before the United States in another form very soon I withdraw my amendment."

He expressed his belief that German interference in Samoa had been a direct act of the German government, and in pursuance of a settled policy on the part of that government.

The amendments were then agreed to without division.

The amendment raising to the rank of ambassadors United States ministers to England France, Germany and Russia was rejected. Yeas, 25; nays, 26. The bill was then passed.

The credentials of Edward O Wolcott, senator elect from Colorado, were presented and placed on file.

The senate then proceeded to executive business on the British extradition treaty. After having spent four hours in consideration of the treaty, the senate adjourned, leaving it still pending.

HOUSE.

Almost every desk in the house this morning was bedecked with a red carnation spray, containing petitions in favor of "the Sunday rest" bill.

On motion of Toole, of Montana, the senate bill was passed granting the right of way through the Crow Indian reservation to the Big Horn Southern railroad.

The Oklahoma bill was then taken up as the special order.

The bill having been taken up, Yoder of Ohio moved to reconsider the vote by which the soldiers' homestead amendment was agreed to yesterday.

Payson moved to lay the motion on the table, but his motion was lost.

The motion to reconsider was then agreed to.

The question recurring on the amendment, Kerr of Iowa made the point of order that the proposition was individual.

The speaker sustained the point and the question was put upon the first clause of the amendment as follows: "It is expressly provided that the rights of honorably discharged union soldiers and sailors in the late civil war to make homes on public lands under the existing homestead laws shall not in any degree be impaired by the passage of this bill."

The question then recurred on the second paragraph, which provides the right of such honorably discharged union soldiers and sailors to make homestead entry and perfect the same by occupancy under the existing homestead law shall extend to any and all land which shall be opened to settlement by the provisions of this bill.

After considerable debate this clause was rejected.

Payson's townsite amendment was agreed to without division.

O'Ferrall, of Virginia, moved for reconsideration.

Springer moved to table that motion, pending which the house adjourned.

Shot While Playing Pool.

LITTLE ROCK, Ark., January 31.—Advices received from Wynne, Ark., say Edward Parden, a prominent merchant, was shot and killed today in a saloon while playing pool. He was standing near a man by the name of Marshall [illegible] and someone outside fired a shotgun at him. It is claimed that Geo. Cordill was the murderer and intended to shoot Hudson, who had him arrested one day last week for some minor offense and against whom he had threatened violence.

Austria's Heir Apparent.

VIENNA, January 31.—It has been officially announced that the Arch Duke Charles Louis, the emperor's brother, is now heir to the throne.

GREAT MINING SUIT.

Progress of the Suit between the Bonnybel and Durant.

The Case Promises to be Long and Tedious.

Laughable Incidents which Occurred During the Day.

The Bonnybel will Probably Secure a Disagreement of the Jury.

Mining Suit.

DENVER, January 31.—The Bonnybel and Durant mining suit is proceeding slowly and promises to prove one of the longest and most vigorously contested mining cases ever tried in the United States court of Colorado. It is now calculated that the Bonnybel people will not complete their evidence before Saturday evening. The witnesses introduced today were Cecil M. Morgan, James Lyon, Mr. Elmendorf, C. Miller and John LaPost. Many interesting scenes transpired during the day. "Chappie" Morgan, who was the first witness introduced, proved a strong supporter for the Bonnybel company in the examination-in-chief, but was handicapped in the cross examination through his previous connection and testimony in other mining suits. He, however, explained his past testimony in a satisfactory manner, and, on the whole, proved a very good witness. His previous assertion that he believed the Bonnybel to be a blind lead he explained by saying that at that time the development work were not sufficient to admit of the conclusions to which he has since arrived, and which are warranted by later discoveries.

A laughable incident was brought out in connection with the cross examination of Mr. Talbot, who it was shown applied for the position of expert to the Durant people stating that he wanted such work and desired to be on the winning side, and the main part of his testimony was good. Mr. Elmendorf, the assayer, testified primarily to the results of silver and Bucktail ore and rocks. Mr. Lyons proved a valuable witness for the Bonnybel. He, with his associates, discovered and located many of the best mines about Aspen, and this fact gave his testimony considerable weight, in addition, he was a ready and accurate witness. All the witnesses introduced during the day's proceedings former days of the trial, agreed that the Bonnybel vein was distinct from the Durant and that it was in places well defined and that there were no evidences of a slide. The opinion upon the to prevail that the Bonnybel will at least secure a disagreement of the jury, and that in such event the second contest will be necessary to determine to whom the honors at stake rightfully belong.

The Dead Prince.

VIENNA, January 31.—Prince Rudolph died in his bed, after a fatiguing day's hunting, of heart disease, the cardiac walls being ruptured. The body of the young prince arrived on a special royal train from Meyerling this afternoon. Large crowds were at the station and along the route. The populace everywhere doffed their hats and showed every mark of the deepest respect. The coffin was draped in velvet, embroidered with a gold cross. The hearse was drawn by six horses, followed by Prince Hohenlohe Schillingsfurst, grandmaster of the imperial household, the court chaplain and other officers, who accompanied the remains to the apartments of the deceased in Hofburg. The papers all print extra mourning editions, extolling the dead prince's virtues. The general opinion is that the death will not effect the Australian policy.

VIENNA, January 31.—The precincts of Hofburg are densely thronged today by silent crowds. The emperor passed a sleepless night. This morning the crown princess placed the first wreath upon the coffin. Afterward her daughter, Arch Duchess Elizabeth, brought a wreath of pure roses entwined with white ribbons. Herr Fisza the Hungarian premier, arrived today.

To Admit the Territories.

WASHINGTON, January 31.—Republican senators today in caucus adopted a resolution insisting upon the admission as states of North and South Dakota, Montana and Washington. While it was regarded as expedient that constitutional conventions should be called in the two Dakotas to pass upon the new constitution the senators are resolved that another vote will not be required upon the question of division. There was a lack of unanimity, however, in regard to New Mexico. The senators were not wanting in their support of the admission of a non partisan policy which would include that territory, but they urged on the other hand that owing to the peculiarities of the people of New Mexico, the territory was not fitted for admission. Statements contained in the petition from Albuquerque citizens against admission, which was recently presented to congress, were quoted with effect in this connection. The final decision of the caucus was that the committee on territories should frame a substitute for the house bill so that its rejection by the house would saddle upon that body the unpleasant responsibility to the people of the west. When the bill is made up it will be pushed through the senate with expedition as it is desired that it shall reach the conference stage at least before congress adjourns.

Street Car Strike.

NEW YORK, January 31.—About all the street car lines in the city except the Eighth and Ninth avenue lines have arranged to run cars today. As some of the strikers are fighting drunk trouble is feared. Squads of militia have been detailed to guard the state arsenal against a rumored attack contemplated by the strikers to secure arms and ammunition. Inspector Williams has ordered the police, in case they are attacked by the strikers, to shoot to kill. A thousand strikers have congregated this afternoon near the stables of the belt line and erected barricades across the track, stating that no car would be allowed to run. Trouble is believed to be imminent. The police reserves are ordered to concentrate here.

NEW YORK, January 31.—Late in the afternoon the beat line to [illegible] was blocked with loads of sand, and one was blocked with loads of sand, and stones and great crowds of strikers congregated. Stones were thrown and the situation was considered very serious when Inspector Steers ordered a charge with clubs to disperse the crowd. This was made and the crowd was soon dispersed, many of them with sore heads and bodies. During this affray the strikers opened fire with revolvers, which was returned by the police and one of the strikers was [illegible] wounded. Later [illegible] was wounded. Other fights would have occurred but for the fact that when the crowds [illegible] when the police would [illegible] and [illegible] were arrested. During [illegible] Over [illegible] were arrested. Reinforcements were sent for and [illegible] Several other minor affrays occurred at different points. Many of the strikers are clubbed and several were arrested. The police commissioners are holding a conference with Superintendent Murray. Superintendent White, of the Dock Street line, announced the policy that he had determined that the strikers would attempt to run the stables to-night in connection of which a large force of police is on duty there.

Postoffice Bill.

WASHINGTON, January 31.—The postoffice appropriation bill, as completed by the house committee on postoffices and post roads, proposes a total appropriation of $60,767,441. An interesting feature of the bill is the provision for the abolition of the salaries of postoffice clerks. The committee has adopted what is known as the plan submitted by the postmaster general (which has already been published) with the significant omission of the last proviso, "that promotions shall be made only after a competitive examination conducted by examiners appointed by the postmaster to fill the case of first class clerks or after a probationary service of six months."

Friendly Spirit.

BERLIN, January 31.—The white book on the Samoan question will shortly be presented to the reichstag. The National Zeitung announces that a friendly settlement with the United States may be expected based upon Prince Bismarck's proposal for a joint discussion. It is not expected that German military operations in Samoa will commence until sufficient reinforcements are sent to the islands. At present there are three German war ships available with a landing force of 300 men.

Paper Talks Mc Kee.

WASHINGTON, January 31.—The Post tomorrow will print the following private cable received at Washington last night. It is announced that the German government ordered a military attache named Bent Eckardstein to report here at once to the German minister. His business, it is announced, is to investigate and report to the German war department everything of interest concerning the American army and navy, fortifications, equipments, etc.

Suit Against Moore.

INDIANAPOLIS, January 31.—The first direct litigation against embezzler Moore was begun this afternoon. Secretary Abbott, of the insurance company, made affidavit in attachment and garnishment against Moore for an alleged defalcation of $28,451. The affidavit alleges that Moore has concealed himself to avoid service. The case is set for hearing February 13.

Expedition Against Hayti.

WASHINGTON, January 31.—Mr. Preston, the Boyton minister, has informed the secretary of state that several vessels are being fitted out at New York for an expedition against Hayti. The matter was referred to the treasury department with the result that the collector of customs at New York was specially instructed to see that no violations of the neutrality laws are committed at that port.

Withdrawn from K. of L.

PITTSBURG, January 31.—The national district assembly of machinery construction and [illegible] makers and [illegible] makers has decided to withdraw from the Knights of Labor and form an independent organization to be attached nominally to the American Federation of Labor, with probably 5,000 members in the new organization.

Legitimate Net It.

NEW YORK, January 31.—The Haytian legation this afternoon received an official cable dispatch dated Port au Prince, January 27th, announcing that the following insurgent towns have been occupied by the troops of president Legitime, Nalbeve, Hinche, St. Machaels, Mermacde and Grande Saline.

King of Annam.

PARIS, January 31.—The grand council of Annam has elected Bunley king. He is the son of the former king, and as he is only ten years of age, the regency has been established under Prince Rheadine. The French president has been instructed to ratify the election of Bunley.

Atchison Orders.

SAKKIN, January 31.—Yesterday Atchinoff, leader of the Russian colony on Adjutsh bay ordered his followers to fire upon any Italian gun boat if it came too near the shore. He declared he was acting in accordance with his government orders. He also stated that another body of 300 Cossacks was coming.

Agreement Adopted.

CHICAGO, January 31.—The general managers of lines in the Western States Passenger association today adopted the new passenger agreement mentioned in these dispatches last night. An additional feature of the agreement is the provision that no commission on the sale of tickets shall exceed one dollar.

Murphy's Victory.

BOSTON, January 31.—John Griffin of Braintree, Mass., and Frank Murphy, the feather weight champion of Great Britian, fought eighteen rounds at the Harvard club rooms today for a purse of $700. The fight was a hard one and was awarded to Murphy on points. He clearly had the best of it.

California in the Cabinet.

CHICAGO, January 31.—United States Senator elect Washburne of Minnesota is here on his way east. He says from a talk which he has had with Harrison he has reason to believe that California will be given the secretaryship of the interior and that probably Swift will get it.

Phelps Sails.

LONDON, January 31.—Minister Phelps sailed for the United States this morning. Members of the diplomatic corps and others accompanied him to the railway station here and he was attended by the municipal authorities of Southampton to the dock.

Four Months Imprisonment.

DUBLIN, January 31.—John O'Connor and Thos. Condon members of parliament for Tipperary were today sentenced to imprisonment for four months without hard labor inciting tenants not to pay rent.

THE STREETS IN PARRISH'S ADDITION

Are 100 to 110 feet in width. THE ALLEYS are all 20 feet wide. There are no 60 or 80 feet streets, and narrow, 10-feet alleys, such as are found in other loudly advertised "Additions," with high sounding titles, where you pay high prices for lots, without duly considering that you are throwing away your money.

In the Alley Behind Every Lot in Parrish's Addition

There is a 8-inch Water Pipe connected at Chestnut street with a 16-inch main; the Largest in the City's System. THE MAIN CITY DITCH, taking pure, clear water from the Fountain, runs just back of PARRISH'S ADDITION, and within a stone's throw of it.

YOU ARE SURE TO GET WATER

(Both from Pipes and Ditch) in PARRISH'S ADDITION if there is any water in the Fountain, even if other parts of the city are suffering from scarcity of the precious fluid.

REMEMBER THE FOREGOING, and then, when I tell you I will sell you a First-Class

Lot in Parrish's Addition for $350

To $1,000 a full size lot 50 by 190 feet do not hesitate a moment about buying. You can buy two lots on a corner, and erect pretty little cottages across them, giving each cottage a neat, pretty little yard, and readily rent them, owing to the location, etc.,

To Pay You 25 to 35 Per Cent Per Annum on the Entire Investment

The building now occupied by Rose Bros. as a livery stable, on Tejon street, is to be remodeled and will be occupied by a firm from Cleveland, Ohio, as a carriage, wagon and harness salesroom.

Popular prices of admission will be charged for the engagement of Mrs. Scott-Siddons at the opera house next Saturday evening. Seats are now on sale at the Midland ticket office.

Two men were before Justice Shideler yesterday for fighting. One of them was fined $10, but the other was too much filled up with something that cannot be purchased in Kansas to answer. He will get his hearing to-day.

It is rumored that there will be a skating pond made on the college recreation for the free use of the students and professors, charging a small admission fee to outsiders so as to be able to defray expenses.

Nothing has been heard from Tony Foster regarding the changing of the place of the bicycle race, therefore it will be run on the main road as first stipulated. The first race will be started at 2 o'clock sharp next Saturday afternoon. The judges will be announced hereafter.

A circular issued by the Colorado Midland Railway company announces that the offices of the general solicitor have been removed to the Chever block corner of Seventeenth and Larimer streets, Denver. General Solicitor H. T. Rogers can be found at the office of the company in this city on Mondays of each week.

There is some talk of organizing a tribe of the order of United Red Men in this city. This is one of the healthy and growing secret orders of the country and now numbers about 100,000 members. Mr. Charles Ludwig has the matter in hand. Those who feel an interest in the matter can call him at Henry Kranz's barber shop.

Those intending to make Christmas presents of useful articles will find a large assortment at the domestic table at the Congregational fair Thursday and Friday of this week. All sorts of aprons, a great variety of bags, holders, bureau covers, comfortables, invalid slippers, etc., sure to be just the thing your friend was wishing for.

The large and attractive "ads" which Mr. A. L. Lawton and Mr. M. Kennedy have in this morning's GAZETTE give some idea of what the movement is in Roswell real estate. Both of these gentlemen are selling these lots—or more properly speaking, the lots are selling themselves and they are acting as the agents.

The unprecedented sale of lots yesterday in the "Boston Land Co." tract on North Cascade avenue proves beyond a doubt that the citizens are willing to invest their money when value received is offered. This tract with its water privileges, with one of the finest avenues of our city opening through it is without a doubt the finest opportunity ever offered for a cheap home. No one should delay if they wish bottom prices as they will no doubt be advanced very soon. There are still desirable lots on sale. Call at office of M. Kennedy No. 9 North Tejon St. for particulars.

The "Queen of the Platform," Mrs. Scott Siddons, gives an evening of dramatic readings at the opera house next Saturday. She will no doubt be warmly welcomed by our theater going people. Mrs. Siddons once retired upon a competency gained by her own efforts, but the sad downfall of her husband's mental powers and his unfortunate investments while in this condition rendered it necessary for her to return again to a public which was only too glad to welcome her. Mrs. Siddons has the gift of a singularly appropriate, eloquent stature and a voice whose power of soft, modulated tenderness is only matched by its capacity for expressing the most violent emotions of rage, defiance, hate or scorn.

There were 167 lots sold in the new addition to Roswell which was placed on the market yesterday. This is almost a phenomenal day's work in the sale of real estate in this city. All day long A. L. Lawton's office on Pike's Peak avenue was crowded with people making transfers and horses and buggies were kept busy showing the lay of the land to others. It is anticipated that the crowd will be even greater to-day and preparations have been made [illegible] paid ran from $100 up to $200 and $300 a lot. Those facing on Cascade avenue sold the most rapidly, many persons arguing that another opportunity to purchase a home on this beautiful street at such figures would probably never occur again. Others, of course simply purchased for speculation, arguing that the present movement in real estate is but a slight indication of what is to come next spring. Among Mr. Lawton's customers yesterday was a wealthy gentleman from Cleveland, Ohio, who purchased a large number of the lots in different portions of the addition. There were a number of other parties from the east who purchased but by far the largest advance sales were taken by business men of the city. Mr. Lawton says that the prices will surely be advanced on them within a few days.

MONUMENT MATTERS

Mr [illegible]

The [illegible] central which count[illegible] of during the last week of January is [illegible] short for [illegible] to an end. Rev C H [illegible] he Long has proven himself an earnest [illegible] and zealous worker in the cause of tem[illegible]ce, and the success that attends [illegible] work so far has been large and the good will cause set forth will be felt by [illegible] people for some time to come.

Mr Paten Wilson of the Divide was a caller at Monument on Tuesday last. Mr Wilson reports plenty of potatoes stored on Divide, and says that there is not very little loss by shrinkage and spoiling. The farmers are still in hope of reducing the great surplus of potatoes that still remain in the cellars. Mr. Wilson predicts that more potatoes will be planted during the coming season than have been for a number of years. This part is characteristic of our farmers. So are not easily discouraged by a dry year or a failure of crop.

The favorite investment among our cattlemen at the present time is coyote ponies. Messrs. Herrick of the Arch[illegible] ranch have succeeded in buying two of these troublesome animals during the past week.

Half a century is longer than most [illegible] live, and half a century of married life is rare indeed. Yet this is the [illegible] which our worthy citizen, A. P. St John and Margaret Burk were married. Surrounded by their children, and a few friends around [illegible] and celebrated the event. MANAGER GAZETTE.

The November election seems to have awakened people all over the country to the fact that our election laws need revising. The legislatures of almost every state in the union are considering ballot reform.

The West Virginia legislature must be a source of much pride to the people of that state. It daily meets in joint session, casts a ballot for United States senator, and then adjourns. Occasionally the monotony of this programme is broken by the casting of two ballots. This thing has been going on for several weeks, and there is little prospect of a break in the deadlock for some time to come.

The vacancy created by the death of Congressman Burnes in the Fourth Missouri district presents an opportunity for the republicans to add one more to their delegation in congress. Mr. Burnes was elected the last time by a majority of only a little more than 2000, a large part of which was due to his personal popularity. He is generally acknowledged to have been stronger than his party. With a worthy candidate at the next election the republicans should win.

The caucus of republican senators held yesterday decided that it would be entirely unnecessary for the people of Dakota to vote again on the question of the division of the territory. The provision was placed in the house bill for the purpose of delaying the admission of the Dakotas, and the republican senators have done right in refusing to support it. The author of the house bill says that it would pass the senate with all the embarrassing provisions he tacked on to it, but he thought to throw the responsibility of voting against it on the republican majority in that body. The republican senators can well afford to shoulder the responsibility of refusing to pass the bill.

There has been much doubt in the minds of the members of both parties in congress as to which party will get the offices in New Mexico in case that territory should be admitted to the union. The uncertainty about it arises from the fact that the legislature is republican while the delegate to congress is a democrat. Mr. Joseph the delegate, who has been working hard for the bill which will admit the territory, recognizes the fact that while the uncertainty exists the bill will be hung fire, and. This has led Mr. Joseph to make an announcement disclosing, if it is true, rather a remarkable agreement between the democratic and republican leaders in New Mexico. He says: "We have agreed to divide the offices when we are first admitted as a state. The republicans are to have one senator and the democrats one, and one party is to have the governor and the other the representative. This agreement will be carried out and it should end any talk of politics in our admission as a state."

In January 1886 Secretary Bayard sent a letter of instruction to Minister Pendleton at Berlin in which he said:

"You will temperately but decidedly notify the German Minister for Foreign Affairs that we expect nothing will be done to impair the rights of the United States under existing treaty with Samoa and anticipate fulfilment of solemn assurance heretofore and recently given that Germany seeks no exclusive control in Samoa."

Since that letter of instructions was sent there seems to have been a change of front. Whether it is in accordance with our national policy or not to interfere in Samoan affairs, the present administration evidently thought it was when those instructions were sent. There is nothing indefinite or hard to understand about the words. They said plainly and emphatically that the United States would not tolerate any interference with the autonomy of the Samoan Islands. Notwithstanding this declaration of a definite policy two years ago the administration is now asking congress to define a policy although are rights in Samoa are the same now as then.

City of Homes

To the Editor of the GAZETTE.

In many respects Colorado Springs is one of the most highly favored of cities. Being not only a city of beautiful homes of fine residences, but also being surrounded by the finest suburbs from which selections to suit the most aesthetic can readily be made. Any [illegible] either for health or pleasure who will take a drive to 'Austin Bluff' as the writer has done, cannot but be forcibly impressed with the truth of our statement. The magnificent view from this place both of mountain and plain is we think, unequaled by any other point that we have ever visited. Many other localities possess attractions that ought to satisfy, but this certainly exceeds them all. No one should fail to visit the "Bluff" if only for a single view. Its pure air, protections from winds, &c., also add greatly to its attractions. 'Austin Bluff' is certainly destined to be the suburb of Colorado Springs.
